PURPOSE:

The purpose of these audios is several fold: (1) To teach the Bible stories to children, (2) to do this in order, teaching that there is a continuity to them, that they are a continual history, not just disconnected "bedtime stories", (3) to show the faithfulness of God and how He keeps His promises and fulfills His prophecies, (4) to give children reason to believe (Christian apologetics), and (5) to tie in the Gospel with each audio. These aren't "cutsy" and no extra characters are added. I talk to children but not down to them. Most of these audios are aimed at children 4-10 years of age, though a few are for slightly older children. However, adults have also enjoyed them and learned from them.
